

February 25, 2022

Dear Fort Lee families:

At our most recent scheduled Board of Education meeting the Fort Lee Board of Education voted unanimously to approve Board Policy 1648.11 - The Road Forward COVID-19 Health and Safety. This policy contains an attachment of the District Reopening Plan. In its current format it follows the recommendations of the New Jersey Department of Health (NJDOH). These recommendations make the wearing of masks; optional beginning **March 7, 2022**. This plan does describe the conditions that must exist for this recommendation to remain. If there are significant increases in school and/or community related transmission, the District in consultation with the local health department may reinstate some measures to mitigate the spread.

Please be reminded, regardless of the decision each family may make, we respect and understand that decision. We will not tolerate bullying, harassment or intimidation on any of our campuses. We teach our children to be respectful and we ask all stakeholders of the same respect.

If there are any questions regarding the wearing of masks please contact your child's school.

Thank you for your continued support.

Robert Kravitz
Superintendent of Schools
